

**Masters of Landscape Architecture
Kansas State University
Academic Advising**

Academic advising in the Department of Landscape Architecture/Regional & Community Planning is performed using a variety of methods including group orientation/advising sessions for incoming students, individual advising, and advising via email. A password protected advising website is available to students through K-State Online, a web-based system used by instructors and advisors to communicate with and provide information to students. Some of the documents included on the advising website are the student handbooks, curriculum guides, advising and DARS reports, enrollment worksheets, and links to useful information.

The advisor for the Department of Landscape Architecture/Regional & Community Planning works with students who have been accepted into the MLA, MRCP, and MS Community Development programs. This includes incoming second year through fifth year, as well as post-baccalaureate students.

Second – Fifth Year and Post-Baccalaureate students
